DETAILED ACTION

Notice to Applicant

1. Applicants' Amendment and Response to the Office Action mailed on August 14, 2006 has been entered and made of record.

Response to Arguments

2. In view of applicants' amendments to the claim, the objection to claim 11 has been withdrawn.
3. In view of applicants' amendments and arguments filed on September 25, 2006, the rejections of claims 1-11 under 35 U.S.C. 102(b) or 103(a) as stated in the indicated Office Action have been withdrawn.

Reason for Allowance

4. Claims 1-11 are allowed.

The following is an examiner's statement of reasons for allowance: claim 1 recites applying an auxiliary layer comprising non-doped silicon and germanium to a surface of a silicon body wherein, during an oxidation treatment, a thicker layer of silicon oxide is formed on the auxiliary layer than is formed on the surface of the silicon body. Claim 11 recites applying a non-doped auxiliary layer comprising silicon and germanium to a substrate including silicon, the non-doped auxiliary layer having oxidation characteristics that facilitate thicker oxide growth, relative to oxide growth on the

substrate. These features in combination with the other elements of the claims are neither disclosed nor suggested by the prior art of record.

Claims 2-10 depend from claim 1, so they are allowed for the same reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
